

## PATTERN ALTERATIONS

Please check your pattern and make sure they meet these specifications, and if not, make tweaks.

### Top

- Stitch the breast pocket on the left. It should measure 16 x 18 cm.
- Stitch two lines approx 4 cm in from left side making a place for pens.
- Position two larger pockets on the lower front at each side split. These will be cut 21 x 23 cm.
- All pocket corners need to be reinforced.

### Pants

- Leave a split on the left side seam approx 14 cm long. Hem this split, once again reinforcing at the bottom.
- There is to be no elastic either at the waist or ankles.
- You need to make a tie / cord to replace the elastic at the waist. This means it will also fit more people. Make the tie with a finished length of approx 170cm long and 1cm wide. Make a narrow casing at the waist of the pants that is wide enough for the tie to feed through.
- Position two pockets 21 x 23 cm approx 35 cm from waist across side seams, the centre of the pocket being placed on the side seam.
